

NORTH CANTON CITY SCHOOLS TWO-HOUR DELAYED SCHEDULE

North Canton City Schools, on some threatening weather days, will be implementing a 2-hour delayed schedule for **Hoover H.S. and North Canton Middle School** with elementary buildings operating on their regular schedules.

Rationale:

We could see improved weather and road conditions by 8:30-9:00 a.m. on some threatening weather days and feel that we can save an attendance day by using this schedule. A delayed start will also help eliminate the need for possible additional make-up days in June.

There is more daylight as our students travel to school on foot, in cars or by school bus. The improved visibility may help eliminate some potential driving and walking hazards.

This schedule will allow for more attention to the roads before travel to school begins.

The elementary students, their families and their schedules are least impacted, which may help family planning for such a morning. The older students are more able to handle a schedule change.

Procedures:

All staff (classified and certificated), except for bus drivers, bus monitors, and possibly some cafeteria staff will report safely (as weather conditions permit) to work on their regular schedules.

Bus drivers and bus monitors will report to work in time to run their regularly scheduled elementary routes. H.S. and M.S. routes will begin immediately after completion of the elementary routes. Cafeteria staff will work on a delayed schedule as arranged by the food service director.

Parochial, Montessori and out-of-district schools' students will continue to be transported by their present buses but will be picked up and dropped off at their respective schools on the 2-hour delayed schedule.

Take home times will remain the same for all students.
